

# Aditya Vishwakarma

Senior .NET Full Stack Developer

**Experience:** 12+ Years | **.NET Expertise:** 10.5 Years

## Core Technologies

- .NET Core / ASP.NET / C# – 10.5 Years
- ASP.NET Web API (RESTful Services) – 10.5 Years
- ASP.NET MVC – 6+ Years
- Angular / JavaScript / TypeScript – 8+ Years
- Entity Framework & LINQ – 10.5 Years

## Architecture & Design

- Microservices Architecture – 5+ Years
- System Design & Multi-tier Architecture – 8+ Years
- Design Patterns & SOLID Principles – 8+ Years
- REST API Design & Integration – 10.5 Years

## Cloud & DevOps (Azure)

- Azure App Services, Functions, API Management, Blob Storage, Key Vault – 5+ Years
- Azure DevOps (CI/CD Pipelines) – 5+ Years
- Docker & Containerization – 5+ Years
- Azure Container Registry – 5+ Years

## Database & Performance

- SQL Server – 10.5 Years
- Database Design, Query Optimization & Indexing – 8+ Years
- MongoDB – 2+ Years

## Development Practices & Tools

- SDLC, Agile/Scrum – 8–10 Years
- Code Review, Debugging & Performance Optimization – 8+ Years
- Git, Bitbucket, TFS, Jira – 8+ Years
- Postman, Jenkins, Octopus CLI – 4–8 Years
- SonarCloud, New Relic – 3–4 Years

## AI & Modern Technologies

- LLM / Prompt Engineering – 0–1 Year
- Azure OpenAI & AI Services – Basic Exposure
- RAG & Vector Database Concepts – Conceptual Knowledge

This document summarizes technical expertise and experience in enterprise software development.
